# **CATALOGUE OF SALE**

## **TO BE SOLD AFTER THE WEEKLY ENTRIES**

### **GRIFFITHS, ABERBRYWNEN "GLANRHOS HERD"**

Glanrhos herd was established in the 1950's. There are currently 8 excellent cows and 14 VGs in the herd. The third generation run the 180 head herd milking on a forage-based system with all year around calving. The feeding policy is based on grass and best quality silage with nuts in the parlour being fed to yield. Latest results Butterfat is 4.85%. Protein is 3.76%. The current bactoscan is 35. SCC is 84. The herd is screened for Johnes and Bvd.

The second-generation J Alwyn & David R Griffiths were one of the very first Holstein breeders to complete embryo transplants. The emphasis being on breeding with best bulls selected individually for each cow including the notorious "MMB Linmarck".

In the 80's the stock was bought by international buyers, shown successfully in the UK with Glanrhos Jan Janatta winning the Royal of England Show RASE 1982 with the herd winning the South Wales regional herd competition in 1983 and 1987. "Glanrhos Treasured Sovereign" was selected as an MMB AI sire.

The sales includes the multi-generational family progenies from "Glanrhos Jan Janatta", "May", "Primrose", "Gwen", "Jess", "Baby", "American Jean".

These are sired by selected Genus bulls including "Golden Dreams, "Picton Shottle", "Windhammer", "Matson", "Dal Alliance", "Carhall Ronaldo", "Abs Achiever", "Stardust", "DG Charley".

Tregibby Kipper was one of the latest stock bulls, son of Wilsborough Kitty. The breeding policy utilises sexed Holstein semen via Genus RMS or British Blue or Angus with the herd having gone from strength to strength increasing milk yield and milk quality being run by the third generation for the past 9 years. We have taken the difficult decision to disperse the milking herd due to a number of challenges on the horizon. Thanks to Paul Evans and Alec Cowan for their support.

BACTOSCAN:35    SCC:85    BUTTERFAT:4.85    PROTEIN:3.7%
