FOOD CHAIN INFORMATION DECLARATION

The holding **is not** under movement restriction for Bovine Tuberculosis (TB)

Or * delete as applicable

The holding **is** under movement restriction for Bovine Tuberculosis (TB)

Cattle on the holding are not under movement restrictions for other animal disease or public health reasons (excluding a 6 day standstill)

Withdrawal periods have been observed for all veterinary medicines and other treatments administered to the animals while on this holding and previous holdings.

To the best of my knowledge the animals are not showing any signs of any disease or condition that may affect the safety of meat derived from them.

No analysis of samples taken from animals on the holding or other samples has shown that the animals in this consignment may have been exposed to any disease or condition that may affect the safety of meat or to substance likely to result in residues in the meat.

ANNEX C

1. Provide information about any animal listed below showing signs of a disease or condition that may affect the safety of meat derived from them.

Identification	Details of disease/condition or diagnosis if veterinary surgeon has examined them

2. Withdrawal periods have been observed for all veterinary medicines and other treatments administered to the animals which are on this holding and previous holdings.

3. Provide details of holding movement restrictions for animal health (e.g. TB) or other reasons

4. Provide details of analysis of samples taken from animals on the holding or other samples that have shown that the animals in this consignment may have been exposed to any disease or condition that may affect the safety of meat, or to substances likely to result in residues in meat.
